Garden Schools

Welcome to Roots Garden Schools

It gives me immense satisfaction and joy to see the overall development of students for over 37 years. Roots is the “home of love, joy and creativity”, where every child is loved and respected.

In our pursuit to nurture a child, we continue to place emphasis on holistic development and growth in our students, with moral values as our compass. We aim to foster well-rounded individuals by providing meaningful, engaging, and reflective educational experiences. By emphasizing active engagement and experiential opportunities, we seek to cultivate both competence and character in every child.

We hope that while we engage our students to enjoy their learning, we develop in them lifelong skills and enduring values that will guide them in their lives. Throughout the year students are provided with varied exciting opportunities to display their creative abilities and skills and to think and learn logically by participating in a wide spectrum of co-curricular and extra-curricular activities within the school as well as at the national and international forums. Our young, vibrant and confident students excel in all the competitions by displaying extraordinary talent and thus earn awards and appreciation for their multifaceted skills. Roots continues to bring modern education which aims to foster holistic development, encompassing not only academic knowledge but also personal and social-emotional development. Through this balanced and progressive approach, we endeavor to equip students with the adaptability, empathy, and global perspective required in the 21st century. At Roots, we remain steadfast in our pursuit of modern, future-focused education – one that extends beyond academics to include personal growth and social-emotional development.

Thank you for your confidence in us. Assuring you of our continuous commitment in bringing out the best in our children. Our aim is to produce humane citizens imbued with strong values to contribute towards a prosperous Pakistan and a better world at large.

Riffat Mushtaq
Aizaz-e-Fazeelat

Founder/Chairperson
Roots School System

We believe each child is 'UNIQUE' – Shaping lives through inspirational learning.

At Roots everything we do revolves around: Opportunity, Curiosity, Diversity and Tenacity. The school community is a vibrant tapestry of diverse backgrounds, talents and aspirations and it is this rich diversity that makes the school such a special place to learn and grow.

In today's fast-paced world, equipping students with the skills they need to thrive is more important than ever. Roots curriculum is purposefully designed to foster critical thinking, creativity, collaboration, and communication – all key competencies required to excel in an increasingly digital and interconnected society.

Pioneering in innovation, Roots is proud to be the first school to develop and implement an Artificial Intelligence (AI) curriculum. This forward-looking initiative ensures that learners are not only equipped with technical skills but are also nurtured in ethical awareness and adaptive understanding – all of which are critical to navigating and shaping an AI-driven future.

I want students to approach life with curiosity, a willingness to challenge and a determination to discover new skills and talents. At roots we will pursue the best possible academic results while seeking the excellence in every area of the school life ,from classroom to the sports pitches . In addition, valuable real-world learning experiences are prioritized through structured internship programs, offering students a chance to develop practical skills, explore career pathways, and connect theoretical knowledge with industry standards. We believe hands-on experience is essential in preparing our students for a successful future.

Environmental stewardship is also a foundational focus. Through initiatives that promote Environmental Literacy, students are educated on the vital importance of ecosystems and sustainable living.

As partners in education, parent involvement is crucial. We encourage you to engage with your child about their learning experiences and the technology they are using. Together, we can support their growth and ensure they are well prepared for the challenges and opportunities ahead.

Thank you for your continued support and commitment to excellence. I am excited about the journey ahead, which is promising, and the future shines brightly for the students of Roots Garden Schools.

Zainab Mushtaq

Executive Director
Roots Garden Schools

At Roots Garden Schools, we believe that education is a transformative journey.

It extends beyond academics to nurture empathy, resilience, and a lifelong love for learning. Our vision is grounded in innovation, diversity, and purpose, empowering students to grow into capable individuals who can shape their own futures.

With a background in Economics from King's College London and experience as a Treasury Analyst advising institutional desks on macroeconomic risks, I have always viewed education through the lens of systems thinking, strategic insight, and long-term impact. At RGS, that vision comes to life through a curriculum that cultivates critical thinking, collaboration, creativity, and communication. These are skills essential for thriving in today's complex, global world.

We are committed to building a culture of excellence where each student feels seen, heard, and inspired. Our learning environment is designed to support curiosity, foster independent thought, and develop meaningful connections between ideas, people, and communities.

AFTER SCHOOL CLUBS

GRADE 1-12

Roots Garden School – Football Club

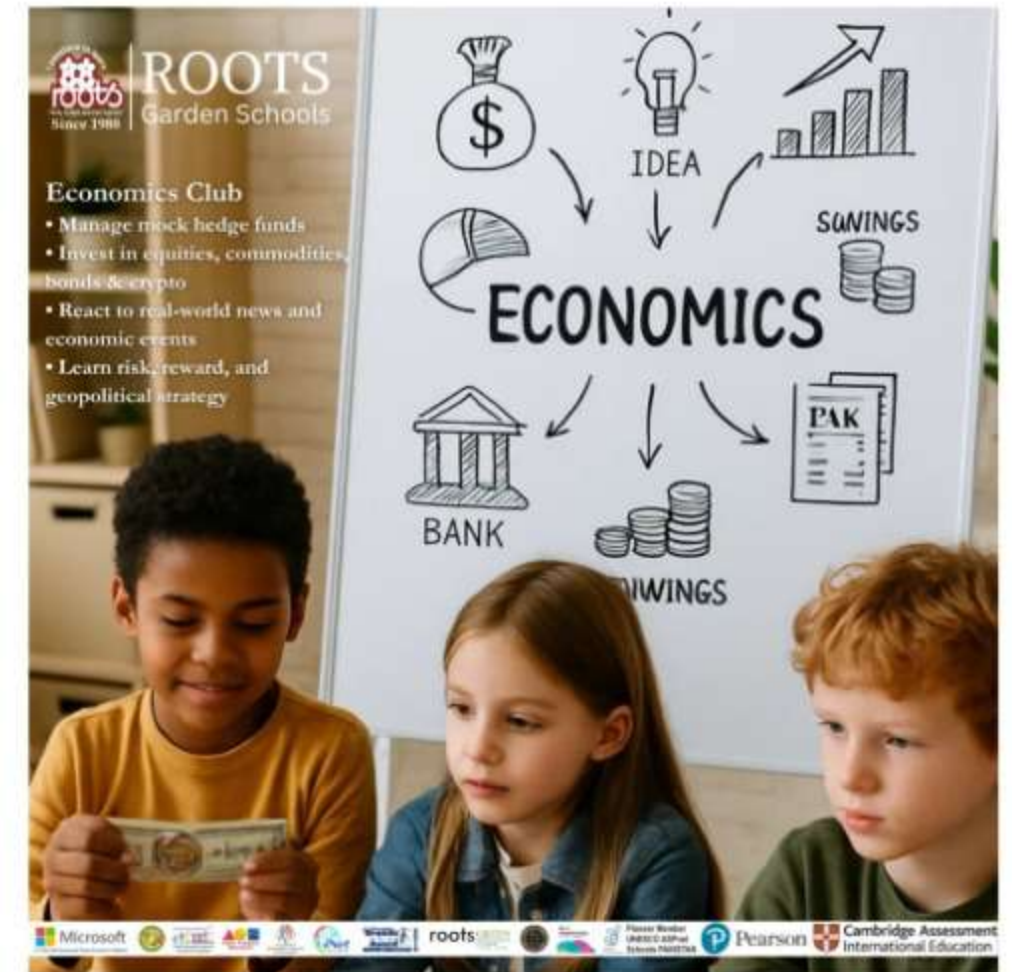

Our football curriculum is officially endorsed by a former Liverpool FC player, offering students professional-level training from an early age. With a strong focus on strength, stamina, defense, and attack drills, students are developed like true athletes. Through structured coaching, tactical learning, and teamwork, we prepare future footballers with discipline, confidence, and high-performance skills – inspired by the standards of elite European football.

Join the Squad

Roots Garden School – Economics Club

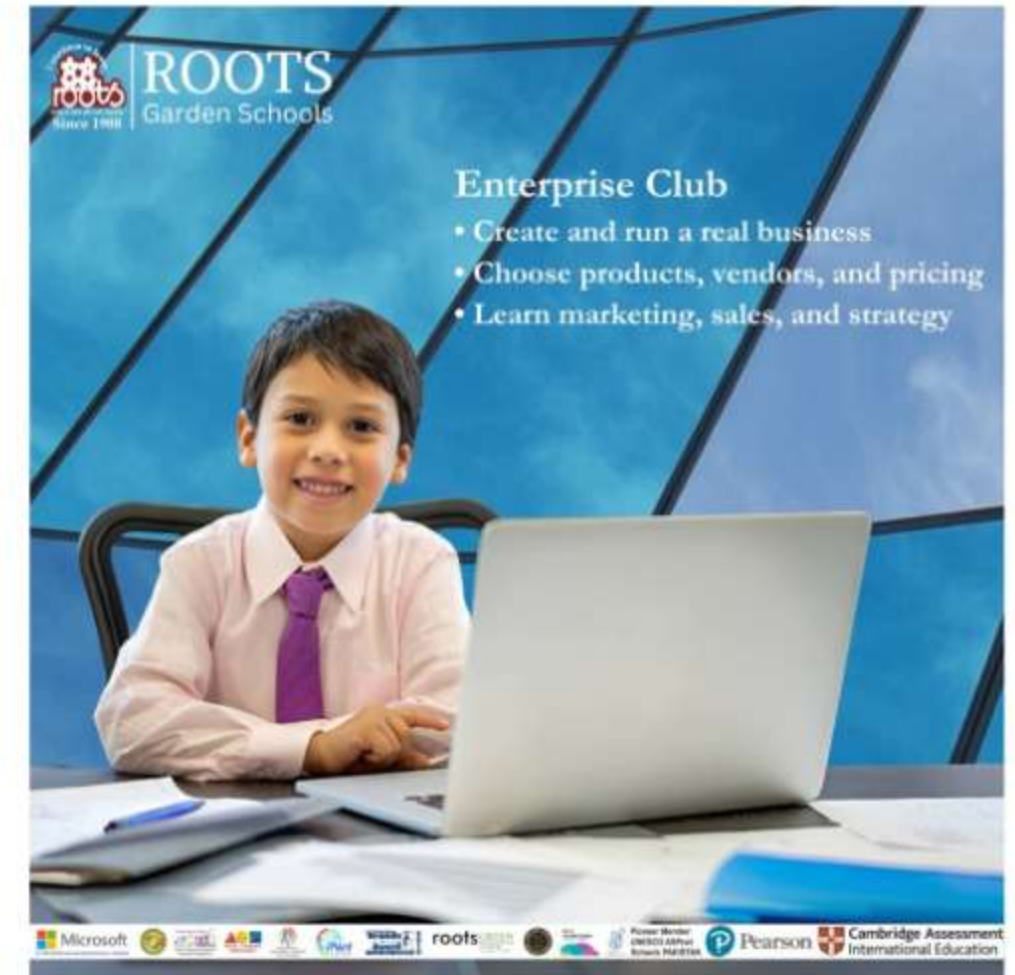

Curious about crypto, markets, and global finance but don't know where to start? Our advanced curriculum—endorsed by analysts from Goldman Sachs—gives students a hands-on experience in trading and economic strategy. From cryptocurrency to commodities, bonds, and equities, students manage mock hedge funds and respond to real-world events like tariffs, inflation, and geopolitical shifts. Learn to think like a trader, analyze like an economist, and compete like a pro.

Join the Future of Finance

Roots Garden School – Enterprise Club

Step into the world of business with real responsibility. In our Enterprise Club, students create and manage their own ventures—choosing products, setting prices, selecting vendors, and building marketing strategies. From idea to execution, every decision is student-led and profit-driven. Experience entrepreneurship first-hand, with structured mentorship and real-time feedback.

Build Your First Business Today

Roots Garden School – Badminton Club

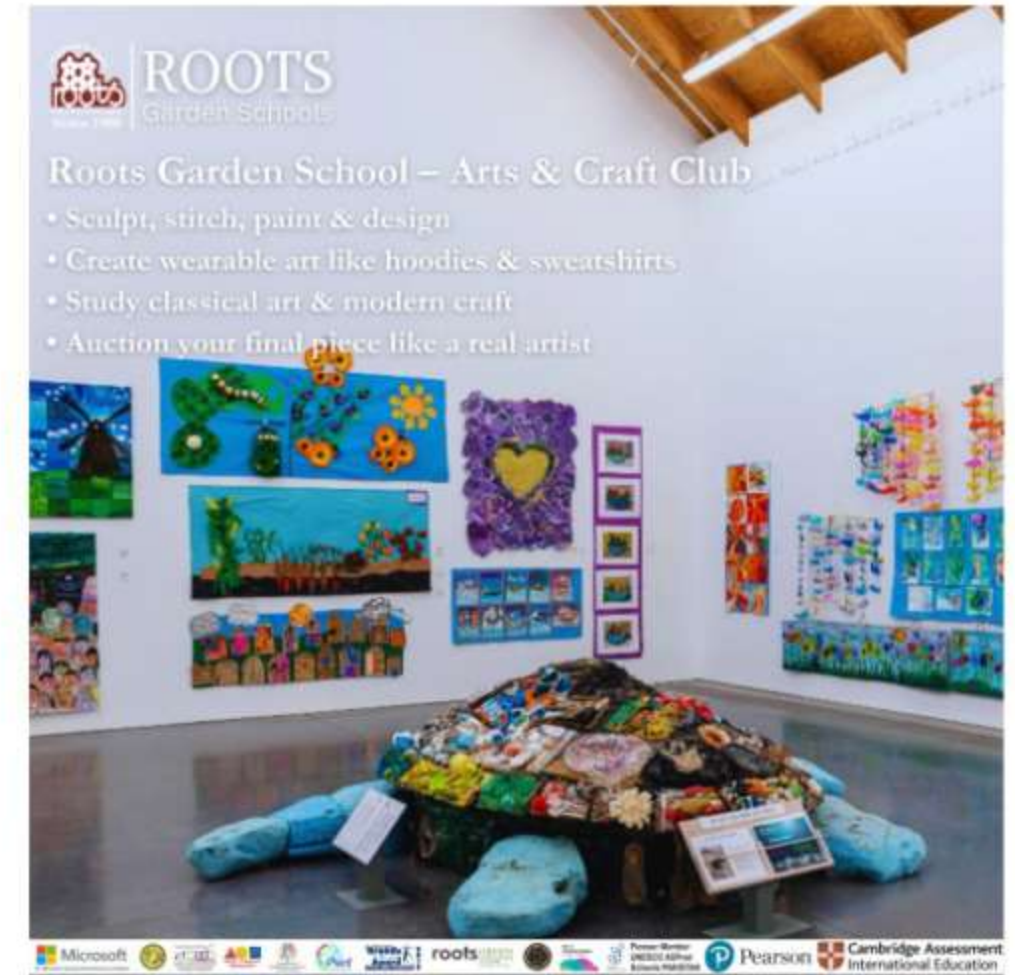

Train with purpose under a state-of-the-art badminton curriculum designed to build real athletic ability. Students develop strength, stamina, defense, and attack through structured drills and progressive challenges. Our program emphasizes agility, precision, and discipline—preparing students for competitive play and lifelong fitness.

Step into the Court of Champions

Roots Garden School – Arts & Craft Club

Where creativity meets craftsmanship. Students explore sculpture, textiles, classical art, and modern design – while creating their own wearable pieces like hoodies and sweatshirts. The program culminates in a professional-style art auction, where students showcase and sell their final projects. Blending technique with expression, we help students build portfolios and confidence as real young artists.

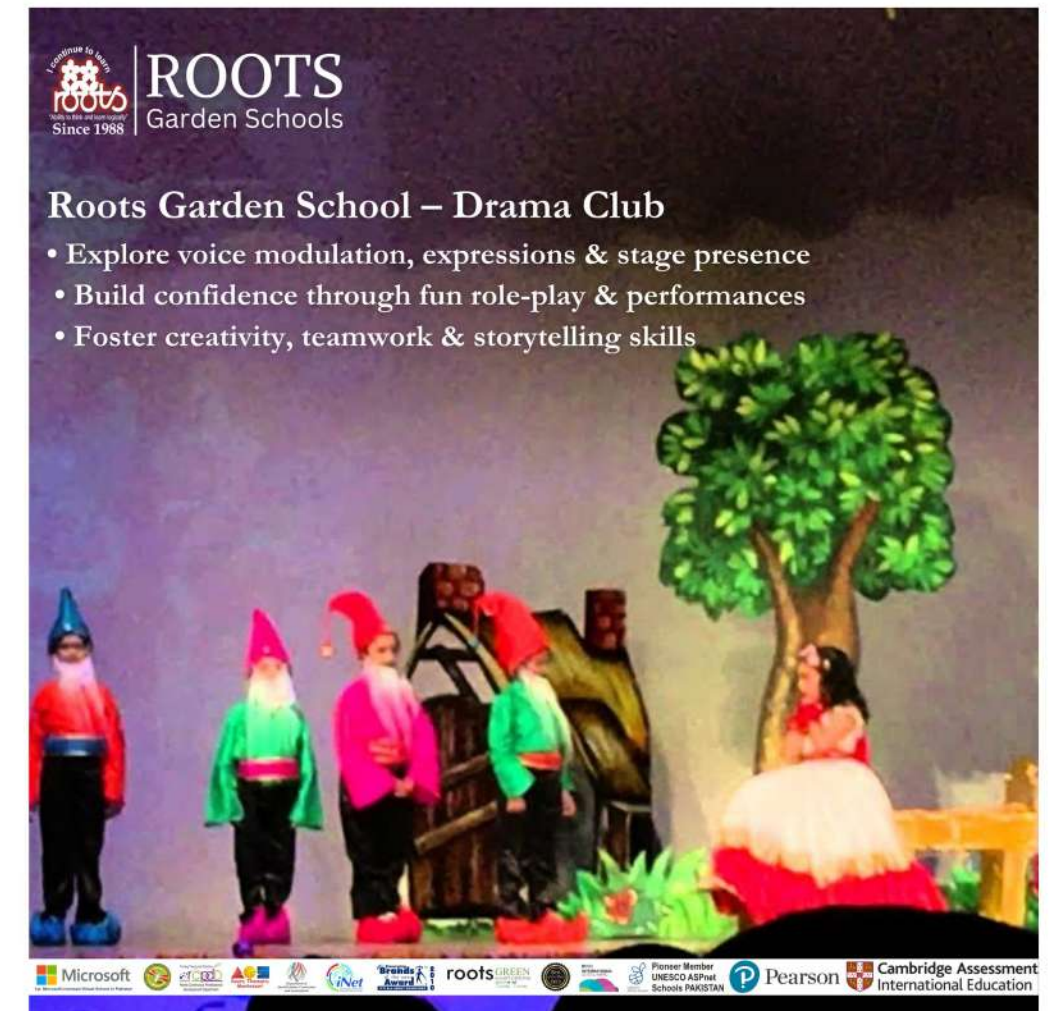

Create - Exhibit - Auction

Roots Garden School - Drama Club

Perform with purpose through a thoughtfully designed dramatics curriculum that nurtures creativity and stage confidence.

Students develop voice control, expression, movement, and improvisation skills through engaging exercises and role-play.

Our programme emphasises imagination, collaboration, and confidence—preparing students for the spotlight and beyond.

Step into the World of Imagination & Expression
