Garden Schools

Welcome to Roots Garden Schools

It gives me immense satisfaction and joy to witness the overall development of students over the past 37 years. Roots is truly the “home of love, joy, and creativity,” where every child is cherished and respected.

In the ongoing pursuit of nurturing each child, we continue to place strong emphasis on holistic learning and growth, with moral values as the guiding compass. The goal is to enrich students' educational journeys by creating more engaged and experiential learning opportunities, while encouraging deeper understanding through reflection. As we inspire students to enjoy their learning, we also strive to cultivate lifelong skills and enduring values that will serve as guiding principles throughout their lives.

Throughout the year, they are offered a wide range of exciting opportunities to showcase creative talents, develop logical thinking, and enhance their skills by participating in various co-curricular and extracurricular activities — both within the school and on national and international platforms. These young, vibrant, and confident learners consistently excel in competitions, demonstrating extraordinary talent and earning accolades for their multifaceted abilities.

Roots continues to offer a modern education that fosters holistic development — encompassing not only academic achievement but also personal and social-emotional growth. By embracing these principles, the curriculum creates engaging, relevant, and effective learning experiences that prepare students for the challenges and opportunities of the 21st century.

Thank you for placing your trust in this institution. We remain committed to bringing out the best in every child. The aim is to nurture compassionate and responsible citizens, deeply rooted in strong values, who will contribute to a prosperous Pakistan and a better world.

Riffat Mushtaq
Aizaz-e-Fazeelat

Roots School System

Welcome to Roots Garden Schools

We believe each child is 'UNIQUE' – Shaping lives through inspirational learning.

At Roots, everything we do revolves around Opportunity, Curiosity, Diversity, and Tenacity. Our school community is a vibrant tapestry of diverse backgrounds, talents, and aspirations – and it is this rich diversity that makes our school such a special place to learn and grow.

In today's fast-paced world, equipping students with the skills they need to thrive is more important than ever. The Roots curriculum is purposefully designed to foster critical thinking, creativity, collaboration, and communication – key competencies required to excel in an increasingly digital and interconnected society.

Pioneering innovation, Roots is proud to be the first school to develop and implement an Artificial Intelligence (AI) curriculum. This forward-thinking initiative ensures that learners are not only equipped with technical skills but are also nurtured in ethical awareness and adaptive understanding – both essential for navigating and shaping an AI-driven future.

I want our students to approach life with curiosity, a willingness to challenge, and a determination to discover new skills and talents. At Roots, we pursue the best possible academic results while striving for excellence in every area of school life – from the classroom to the sports pitches. In addition, valuable real-world learning experiences are prioritized through structured internship programs, giving students the opportunity to develop practical skills, explore career pathways, and connect classroom learning with industry standards. We believe hands-on experience is essential to preparing our students for a successful future.

Environmental stewardship is also a foundational focus. Through initiatives that promote Environmental Literacy, students are taught the vital importance of ecosystems and sustainable living.

As partners in education, parental involvement is crucial. We encourage you to engage with your child about their learning experiences and the technology they are using. Together, we can support their growth and ensure they are well prepared for the challenges and opportunities ahead.

Thank you for your continued support and commitment to excellence. I am excited about the promising journey ahead – the future shines brightly for the students of Roots Garden Schools.

Zainab Mushtaq

Executive Director
Roots Garden Schools

At Roots Garden Schools, we believe that education is a transformative journey. It extends beyond academics to nurture empathy, resilience, and a lifelong love for learning. Our vision is grounded in innovation, diversity, and purpose, empowering students to grow into capable individuals who can shape their own futures.

With a background in Economics from King's College London and experience as a Treasury Analyst advising institutional desks on macroeconomic risks, I have always viewed education through the lens of systems thinking, strategic insight, and long-term impact. At RGS, that vision comes to life through a curriculum that cultivates critical thinking, collaboration, creativity, and communication. These are skills essential for thriving in today's complex, global world.

We are committed to building a culture of excellence where each student feels seen, heard, and inspired. Our learning environment is designed to support curiosity, foster independent thought, and develop meaningful connections between ideas, people, and communities.

At the heart of our mission is a strong partnership with parents. Your trust and involvement play a vital role in helping us guide every child towards their fullest potential. Together, we are shaping confident learners and responsible citizens, ready to embrace both the challenges and opportunities that lie ahead.

RGS Padel Court

We are proud to announce 'THE AERE' Padel court at Roots Garden School Askari X Flagship Campus!

This initiative marks a significant step in enhancing our commitment to holistic student development through modern sports and physical education.

Padel is one of the world's fastest-growing sports, combining elements of tennis and squash.

It's easy to learn, fun to play, and suitable for all age groups — making it the perfect addition to our school's sports facilities.

Benefits of Playing Padel for Students:

Physical Fitness:

- Boosts endurance, agility, and coordination.

Mental Health:

- Encourages focus, strategic thinking, and stress relief.

Social Skills:

- As a doubles game, Padel builds communication and teamwork.

Inclusivity:

- Easy rules and compact court size make it accessible for all.

Stay Safe, Play Smart, Dress Right!

Mandatory Court Attire (for Boys & Girls)

Footwear

Wear non-marking sports shoes with a good grip (preferably court shoes or tennis shoes).

Avoid running shoes with thick treads -they can cause slips or injuries.

Clothing

RGS Sports uniform

Headwear & Accessories

Cap or visor (optional) for outdoor play

Sweatbands to manage sweat

No jewelry or dangling items (for safety)

Age Group:

12 Years & above

Safety Tips

- Always warm up and stretch before playing.
- Use a Padel racket (provided by the school or bring your own).
- Stay hydrated — bring your water bottle.
- Listen to your coach or supervisor for rules and guidance.
- No rough play or pushing on the court.

Let's enjoy the game!
